

Harden X™

Lithium Hardener / Densifier

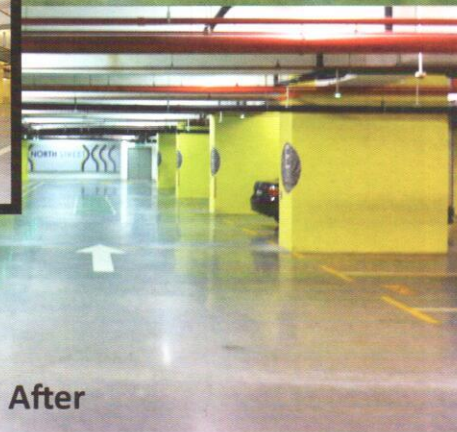

EXTERIOR / INTERIOR USE ON NEW OR EXISTING CONCRETE

Using the most advanced nano technology in the industry, the lithium formulation of Harden X™ enhances concrete hardness and protection against dusting, moisture, abrasion, bacteria and general wear & tear sustained by both interior and exterior surfaces over time. Harden X™ is not a coating, it completely penetrates the surface to become part of the structure in just one application to reduce cracking, no peeling or flaking for the life of the surface.

Features of Harden X™ :

- **Dust-Free** - water resistant & abrasion resistant
- **Increase Surface Hardness** - achieve superior concrete surface strength
- **Durable** - one-time installation provides long-lasting protection
- **Fast Drying** - dries in 10 minutes, open to traffic in 30 minutes
- **Light Reflective** - mirror-like sheen brightens interior spaces
- **Stable In All Environmental Conditions** - protection against moisture, algae, bacteria
- **Low-Maintenance** - minimal downtime & maintenance costs

ENVIRONMENTAL ADVANTAGES

- LEED® Certified - Meets EQ Credit 4.1: Low emitting materials/adhesives & sealants
- No VOCs
- Water-based
- Odorless
- Eliminates dusting of concrete surfaces for improved air quality
- Concentrated material means lower application rate, fewer containers, less fuel used in shipping due to lower product weight, reduced shipping costs
