

ZACKEA - A Benchmark For All Other Flooring Systems...

ZACKEA is a proven monolithic coloured concrete floor system that is widely acclaimed to be very resistant to wear and tear. It does not require the need to apply and re-apply floor coatings like epoxy and polyurethane. Treated with a coat of concrete densifier, it hardens and seals the floor surface and protect against oil penetration. As a result, the floor is virtually maintenance-free for life.

- ➔ Green product - Environmentally friendly
- ➔ High abrasion resistance
- ➔ Does not delaminate
- ➔ Scratch resistant
- ➔ Very low maintenance
- ➔ Resist oil penetration
- ➔ Durable with sheen
- ➔ Long term cost saving

Scott Garden Basement Car Park, KL

Technical Data

Compressive Strength	: 63.8 N/mm ² (ASTM C 942 - 99)
Abrasion Resistance	: 70.3 mg weight loss & wear index at 1000 cycles (ASTM D4060)
Skid Resistance	: Wet : 62 Dry : 82 (ASTM E303)
Water Absorption	: 4.89 % (BS 1881 : Part 122)
Pull Off Adhesion Test	: 967 Psi (ASTM D4541)
Chemical Resistant Test	: No objectionable alteration on the surface. (ASTM D1308) (Acid, detergent & engine oil)

Colour Chart

		
ZackHard Green	ZackHard Red	ZackHard Blue
		
ZackHard Natural	ZackHard Light Grey	ZackHard White
